

MD FAIZUL BARI

PROFESSIONAL SUMMARY

Quality Analyst / ML Data Associate with 4+ years of experience at Amazon, specializing in compliance-focused quality assurance, audit reviews, data validation, process controls, and root cause analysis. Experienced in reviewing high-volume operational data for adherence to SOPs, internal guidelines, quality standards, and regulatory requirements. Maintained 99%+ audit compliance with zero critical findings in annual compliance reviews and contributed to a 30%+ reduction in operational data errors through standardized QA controls and process improvement.

CORE COMPETENCIES

- Compliance Monitoring & SOP Adherence
- Data Validation & Verification
- Corrective / Preventive Actions
- Process Improvement
- SQL (Basic)
- Audit Reviews & Audit Support
- Risk Identification & Process Gaps
- Error & Deviation Tracking
- Cross-Functional Collaboration
- Quality Assurance & Process Controls
- Root Cause Analysis (RCA)
- Documentation & Reporting
- MS Excel (Advanced)

PROFESSIONAL EXPERIENCE

Quality Analyst / ML Data Associate – Amazon (Shopping Quality Team) | Jun 2022 – Present

- **Compliance & Audit:** Performed compliance-focused audit reviews and data validation across 1000s of daily transactions, ensuring 99%+ alignment with internal guidelines and regulatory requirements.
- **Audit & Quality Controls:** Reviewed high-volume operational outputs against defined SOPs and quality standards, identifying errors, deviations, and process gaps and maintaining audit documentation.
- **Risk & RCA:** Investigated recurring quality and process issues using root cause analysis and implemented standardized double-checks and preventive controls, reducing operational data errors by 30%+.
- **Compliance Performance:** Maintained 99%+ audit compliance across assigned processes, with zero critical findings in annual compliance reviews.
- **Reporting & Documentation:** Prepared structured operational reports and data summaries to track quality metrics, audit findings, process performance, and improvement opportunities.
- **Process Improvement:** Supported 5+ process improvement initiatives that improved team efficiency by an average of 25% through standardized QA protocols and workflow optimization.
- **Cross-Functional Collaboration:** Partnered with product teams, data engineers, and leadership to address quality gaps, improve sorting workflows, and strengthen process adherence.

KEY ACHIEVEMENTS

- Maintained 99%+ audit compliance with zero critical findings in annual compliance reviews.
- Reduced operational data errors by 30%+ through standardized QA checks and systematic root cause investigation.
- Improved team efficiency by an average of 25% through 5+ process improvement initiatives.

TECHNICAL SKILLS & TOOLS

MS Excel: Advanced (Pivot Tables, VLOOKUP, Data Analysis) | **SQL:** Basic Querying & Data Retrieval | **Quality:** Error Tracking, Root Cause Analysis, Precision Sorting Systems | **Documentation:** Reporting & Metrics Dashboarding
