TECHNICAL SKILLS

Programming Languages & Frameworks: Java, Java 8, Java 17, Spring Boot, Spring Batch, Microservices, REST API, Angular, TypeScript, JavaScript

Databases & Data Management: PostgreSQL, Snowflake, MongoDB, MS SQL Server, MySQL, Oracle DB, Database Optimization, Indexing, Query Performance Tuning, JPA, Hibernate, Spring Data JPA

Cloud & DevOps: Microsoft Azure, Google Cloud, AWS, Docker, Kubernetes(Containerization & Orchestration), Jenkins, BitBucket, Git, Github Actions

Big Data & Messaging: Kafka

Software Development & Tools: RESTful Web Services, OpenAPI, Swagger, Visual Studio Code, Eclipse, IntelliJ IDE, Postman, SOAP UI, Junit 5, Mockito, TestNG(Unit & Integration Testing)

CSE Fundamentals: Data Structures & Algorithms, System Design, Computer Networks, Operating Systems, Multithreading, Design Patterns (Singleton, Factory, Builder, Observer, etc.)

WORK EXPERIENCE

Cognizant, Bangalore

2022 - 2026

Associate Software Engineer

- Working as **Full Stack Java Developer**.
- Developed and optimized Spring Boot applications from scratch** for large-scale data processing.
- Implemented Spring Batch** using **multi-threading, partitioning, tasklet and chunk-based** approaches for efficient batch processing.
- Enhanced performance** of batch jobs using **Java 8 optimizations**, reducing processing time and improving scalability.
- Applied Spring Batch optimization techniques**, including **cursor-based reading, bulk inserts, parallel processing, and efficient resource management**, to handle millions of records.
- Implemented server-side validation, sorting and pagination** in **Spring Boot and Angular**, ensuring seamless user experience.
- Refactored and upgraded** microservices from **JDK 8 to JDK 17**, leveraging modern Java features for improved maintainability.
- Collaborated with cross-functional teams**, resolving technical challenges and improving overall system efficiency.
- Provided Knowledge Transfer (KT) sessions** to new joiners and junior team members, ensuring smooth onboarding and knowledge sharing.

EDUCATION

Sathyabama Institute of Science & Technology | Chennai

2018 - 2022

BE Computer Science and Engineering

Relevant Coursework: Object Oriented Programming, Databases, Discrete Maths, Data Structures and Algorithms, Operating Systems, Computer Networks, Soft Skills

PROJECT

Tweet App | Angular, Spring Boot, Java, MongoDB

Feb 2023

- It is a **Twitter clone** built using **Angular** for frontend and **Spring Boot & Java** for the backend.
- It provides features like **tweet creation, liking, commenting, user authentication, and real-time updates**.
- The application is **deployed on AWS**, leveraging **AWS Services** for scalability and performance.

Title Management System | Spring Boot, Java, Microservices, PostgreSQL, Junit, Cucumber

Aug 2023

- Developed a scalable **Title Order Management System** for tracking vehicle title orders.
- Implemented **unit and integration test cases** to ensure high reliability of services.
- Optimized **database queries**, reducing time by 30%.

Title Research Application | React, Spring Boot, Java, MongoDB, Azure

Feb 2024

- Build RESTful services for **fetching and processing** title research data.
- Designed and Implemented **API's** to improve system efficiency.

CERTIFICATES / ACHIEVEMENTS

- Microsoft Certified: Azure Fundamentals -** Credential ID:- I815-2708

Earned on: Jan 28, 2023
