

MD. SHAMSHAD ALAM

QA AUTOMATION ENGINEER

shamshadalam11786@gmail.com | +91 98754 23683 | Bihar, India | Open to Relocation

PROFILE

Detail-oriented QA Automation Engineer with hands-on expertise in Java, Selenium WebDriver, Cucumber (BDD), TestNG, Maven, and Jenkins, backed by solid grounding in Agile delivery. Brings direct experience validating AI/ML datasets and building automation frameworks end-to-end, with a strong focus on quality, precision, and continuous improvement.

CORE TECHNICAL SKILLS

Java	Selenium WebDriver	Cucumber (BDD)	TestNG
Maven	Jenkins (CI/CD)	Git / GitHub	JIRA
Manual Testing	Regression Testing	Agile / Scrum	SDLC / STLC

PROFESSIONAL EXPERIENCE

QA / Manual Test Associate — Globsyn IT Services Pvt. Ltd.

Jul 2019 — Mar 2022

- Performed manual validation and quality checks on AI/ML training datasets to ensure data accuracy and integrity.
- Carried out face and image annotation for computer vision model development.
- Collaborated closely with cross-functional engineering teams to align on data quality standards and delivery timelines.
- Strengthened analytical and testing capabilities through consistent exposure to real-world data validation challenges.

TECHNICAL PROJECT

E-Commerce Automation Framework

Designed and built an end-to-end test automation framework for an e-commerce application using Java, Selenium WebDriver, Cucumber, TestNG, and Maven, with Git for version control and Jenkins for continuous integration.

CORE STRENGTHS

Automation framework design & maintenance	CI/CD integration with Jenkins
BDD test scripting with Cucumber	Defect tracking & reporting via JIRA
Regression & functional test execution	Agile/Scrum collaboration

EDUCATION & CERTIFICATION

B.Tech, Electrical Engineering — Guru Nanak Institute of Technology, 2019 (DGPA: 6.79)

Software Testing & Development — Regrow Tech, 2022
