

SHARIQUE AHMAD

Hyderabad, Telangan, India | +91-9939754088 | syedsharique360@gmail.com

PROFESSIONAL SUMMARY

ISTQB-Certified Senior ERP QA Lead & Fusion Consultant with **7+ years** of experience driving Quality Assurance and Functional Validation for large-scale enterprise ERP transformations. Subject Matter Expert (SME) in **Oracle Fusion / R12 (P2P, SCM, Financials, OTL, HCM)**. Highly skilled in test automation (**Java/Selenium**), CI/CD integration, defect lifecycle management, and leveraging **Generative AI** tools to optimize test strategy, execution, and defect triage. Proven track record leading multi-disciplinary QA teams, executing cross-module SIT/UAT, and translating business processes into Change Requests (CRs).

CORE COMPETENCIES & TECHNICAL SKILLS

- Oracle ERP & Modules:** Oracle Fusion Cloud & R12 EBS, Procure-to-Pay (P2P), Order-to-Cash (O2C), Supply Chain Management (SCM), General Ledger (GL), Accounts Payable (AP), Accounts Receivable (AR), Oracle Time & Labor (OTL), Time & Absence.
- Testing & QA Engineering:** End-to-End (E2E) Testing, SIT, FAT, UAT Execution, Test Strategy & Planning, Performance Testing, Regression Suites, User Readiness Testing (URT), Defect Triage & Root Cause Analysis.
- Automation & DevOps:** Java, Selenium WebDriver, CI/CD Pipelines, GitLab CI, JMeter, LoadRunner, SQL Server.
- AI-Assisted QA & Tools:** ChatGPT, Claude.ai, Gemini AI, custom GEM Agents (Test Generation & Optimization), Azure DevOps, Jira, HP ALM, Kofax, Tradeshift.
- Methodologies:** Agile (Scrum/Kanban), Waterfall, Change Management, Release Management.

PROFESSIONAL EXPERIENCE

SDET-II (Oracle Fusion Transformation) — Akamai Technologies | Nov 2025 – Present | Bangalore, India

- Test Strategy & Automation:** Design and execute automation scripts using Java and Selenium, seamlessly integrated into CI/CD pipelines to ensure continuous delivery.
- Fusion Transformation QA:** Lead functional and automated testing for Oracle OTL, Time & Absence Management, and Accounting Fusion Transformation initiatives.
- Defect & Risk Management:** Uncovered 192 critical defects across 8 international country test suites for OTL; successfully drove 17 Oracle Service Requests (SRs) and converted 13 into strategic Change Requests (CRs).

Module Lead - Testing — Sopra Steria India | Aug 2019 – Oct 2025 | Noida, India

- Program Leadership & ERP Migration:** Spearheaded testing for the ISFE2 Transformation Project, migrating P2P and Reporting workflows from Oracle EBS R12 to Fusion Cloud. Managed E2E integration testing across O2C, A2R, GL, EDMCS, and SCM.
- QA Delivery & Team Leadership:** Directed an 11-member QA team through SIT, FAT, and E2E validation cycles. Standardized test planning, led daily Defect Triage sessions, and delivered structured Knowledge Transfer (KT) to cross-functional teams.
- Quality & Coverage Optimization:** Expanded test suite coverage by 60% through automated frameworks. Personally identified and resolved 127 high-priority defects during FAT/SIT cycles (highest individual count on the project).
- ERP Upgrade & Advisory:** Managed business observations converted into Change Requests (CRs) across AP, AR, GL, Procurement, and OBIEE. Delivered E2E testing for ERP Lift & Shift, BI Upgrades, and 43 Agile sprints for Edge4Health.

CERTIFICATIONS & EDUCATION

Certifications

- ISTQB Certified Tester** Foundation Level (CTFL)
- ISTQB Agile Tester** Certification

Education

- Bachelor of Technology (B.Tech)** – 70.05%
- Maulana Azad College** of Eng. & Tech (2015–2019)
