OBJECTIVE

MERN Stack Developer with experience building scalable full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**. Skilled in designing RESTful APIs, implementing secure authentication (JWT & OAuth), integrating payment gateways, optimizing MongoDB queries, and developing responsive user interfaces.

SKILLS

Languages: JavaScript(ES6+) • SQL
Database: MongoDB • Aggregation Pipeline Operator • Indexing • Backup & Restore
Backend: Node.js • Express.js • REST APIs • MVC Architecture • JWT • OAuth • WebSocket • NodeMailer • Multer • CRON Jobs
Frontend: React.js • Redux • Context API • React Router • React Hooks • HTML5 • CSS3 • Bootstrap
Security: Express Validator • CSRF Token • JWT Authentication • Rate Limiting • Helmet
Tool: Postman • Git & GitHub
Core Concepts: Authentication & Authorization • RESTful APIs • Middleware • State Management • Responsive Design

PROJECT

Railway Booking System MERN Stack [GitHub]	Apr 2026 – May 2026
- Designed a full-stack Railway Booking System using MERN with secure JWT authentication and role-based access. - Implemented ticket booking, confirmation, booking history, and email ticket generation using NodeMailer. - Built an Admin Dashboard to manage trains with add, update, delete, and role-based access control features. - Optimized MongoDB queries using Aggregation Pipeline operators to improve performance and response time. - Developed RESTful APIs using MVC architecture with validation, middleware, and centralized error handling.	
Learning Management System MERN Stack [GitHub]	Jun 2026 – Jul 2026
- Developed a MERN-based LMS with JWT authentication and role-based access for Admin, Instructor, and Student. - Built dedicated dashboards for course creation, enrollment, progress tracking, and user-specific management tasks. - Integrated Razorpay payment gateway for secure course purchases with payment verification and enrollment flow. - Designed scalable REST APIs using Express.js and MongoDB with validation, relationships, and error handling. - Organized backend services using MVC architecture and reusable middleware for better scalability and maintenance.	
Authentication System MERN Stack [GitHub]	Jan 2026 – Feb 2026
- Built a secure authentication system with JWT, user registration, login, logout, and protected routes. - Integrated OAuth login using Google, GitHub, LinkedIn, and Facebook for secure user authentication. - Developed OTP-based email verification using NodeMailer to validate users before account activation. - Implemented Forgot Password workflow with secure tokens, email verification, and password reset support. - Applied password hashing, input validation, JWT verification, middleware, and rate limiting for security.	
News Blog website Node.js, Express.js, MongoDB, EJS [GitHub]	Aug 2025 – Sep 2025
- Developed a News Blog platform with category, author, and keyword search for efficient content discovery. - Built CRUD operations for articles, categories, and authors through an intuitive admin management panel. - Developed responsive server-rendered pages using EJS, Express.js, and MongoDB to improve SEO performance. - Implemented Admin and User dashboards with role-based authentication for secure content management. - Designed RESTful APIs using MVC architecture with validation, middleware, and structured error handling.	
Hotel Booking Website [GitHub]	Aug 2026 – Aug 2026
- Developed a Hotel Booking platform with JWT authentication for secure registration, login, and room booking. - Implemented room management with create, update, delete, pricing, and availability tracking for admins. - Built Admin and User dashboards with role-based access for hotel management and booking operations. - Developed RESTful APIs using MVC architecture with authentication, validation, and MongoDB integration. - Designed a scalable architecture with reusable components and a clean UI for easier future enhancements.	

EDUCATION

Bachelor of Engineering (Computer Science) Rajiv Gandhi Proudhyogiki Vishwavidyalaya, Bhopal	Sep 2023 – June 2026
Diploma in Computer Engineering Guru Nanak Dev Institute of Technology, Delhi	Sep 2020 – Apr 2023
